Outline

- eProcurement
- State of Play
- Digital Transformation
- Future challenges

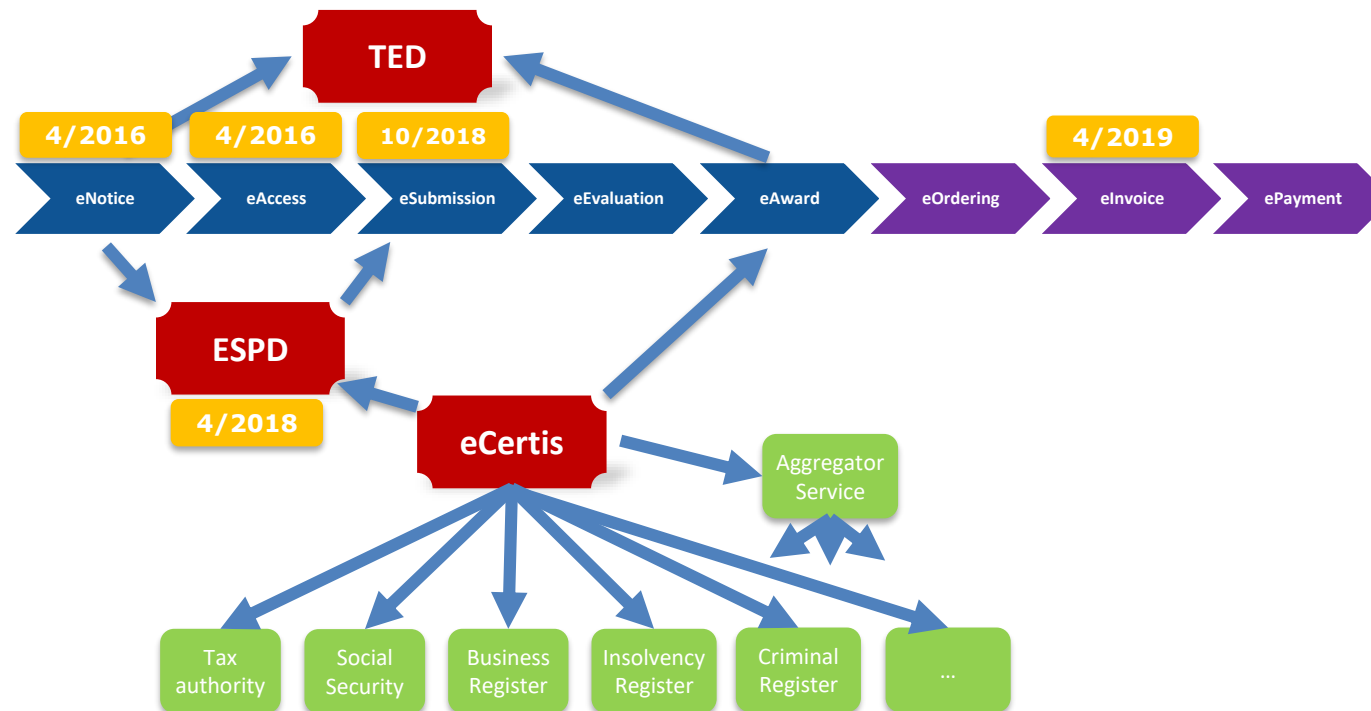

eProcurement life cycle

A better representation of the life cycle

The main milestones

European Single Procurement Document (ESPD)

- The EC supported the uptake of this tool with technical and financial instruments.
- eESPD service from April 2016 to April 2019.
- Currently all MS have solutions available with the exception of CY and LU.
- There are more than 45 solutions available in the EU.

List of ESPD services

This list is compiled through input from the Member States. In order to have your

eCertis

The screenshot shows the eCertis website interface. At the top, there is a header with the European Commission logo and the text "European Commission | eCertis". Below the header is a navigation bar with a home icon and the links "OVERVIEW", "E-CERTIS QUICK GUIDE", and "ABOUT ECERTIS". The main content area starts with a "Welcome to eCertis" message. Below this is a search section with three checked checkboxes: "Criteria", "Issuers", and "Evidence". There are two dropdown menus: "Country" with the text "Choose an option" and "Type of criterion" with the text "Choose an option". Below these is a large empty text input field. At the bottom of the search section is a blue button with a document icon and the text "Export to Excel".

<https://ec.europa.eu/tools/ecertis/#/search>

- Free, on-line source of information to help companies and contracting authorities to cope with the different forms of documentary evidence required for cross-border tenders.
- The Commission is responsible for the IT system. Member States are responsible to keep the information up-to-date (Article 61, EU Directive 2014/24).

TED, the website with business opportunities from the EU public sector.

500,000 contracts worth €450 bn. per year

Where we are

Revamping the web interface

- More
 - User centric
 - User friendly
 - Search functions
 - Systems interconnections
- Better services to businesses and citizens

Improving the current standard forms => New eForms

- More
 - Ready for Digital
 - Flexible
 - Relevant
 - Understandable
- A new implementing regulation was adopted on 30 September 2019 (published in EURLEX: https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=uriserv%3AOJ.L_.2019.272.01.0007.01.ENG)
- Better data quality
- Higher systems interoperability

Digital Transformation in Public Procurement

- Buying new products/services
Or
- Buying in a diferente way
Or
- Creating a new Business Model

<https://www.youtube.com/watch?v=Cl8ijPGEK08>

Understanding the application of Digital Transformation in Public Procurement

- Study regarding the application of emerging technologies in Public Procurement worldwide
- Conducted by Deloitte
- Takes place during the year 2019
- Deliverables:
 - **Long list of cases** (around 96, in 70 countries)
 - **20 detailed use cases**
- Deliverables format:
 - **Report**
 - **Workshops**
 - **Online information** (beginning of 2020)

The Objectives and Scope of the study

	01	Identify projects in the EU and outside of the EU, which used/are using new technologies in the field of public procurement, building up a long-list of initiatives across the world.
	02	Select a limited number (20) of interesting initiatives to develop as case studies in order to provide lessons learnt and recommendations for Member States in their own efforts with emerging technologies in public procurement.
	03	Engage with interested parties in the Member States to build interest and ensure uptake of the results of the study. Involve them in the development of the case studies.

• Emerging technologies

- ✓ AI (Artificial Intelligence) and ML (Machine Learning)
- ✓ IoT (Internet of Things)
- ✓ AR (Augmented Reality) and VR (Virtual Reality)
- ✓ Big Data and Data Analytics
- ✓ Robots and Drones
- ✓ 3D Printing
- ✓ Robotic process automation
- ✓ Blockchain

• End-to-end public procurement process

- ✓ Notification
- ✓ Tendering
- ✓ Awarding
- ✓ Contracting
- ✓ Ordering
- ✓ Invoicing
- ✓ Payments

• 70 Countries around the world

- ✓ 28 EU Member States
- ✓ 42 extra-EU countries across all continents
- ✓ All levels of administration

• Completed, ongoing and planned projects

- ✓ Projects that have already been initiated, piloted/deployed, with tangible effects and measurable impacts
- ✓ Projects being currently piloted/deployed, with tangible effects and estimated impacts
- ✓ Projects being under conception with estimated effects and impacts

The results of the first report

Longlist of

96

projects by public authorities making use of emerging technologies

Region		Technology		Maturity	
					
EU	36	AI & ML	28	Deployed	31
North America	19	Big data	26	In development	16
Europe (non-EU)	16	Blockchain	24	Pilot	18
Asia	11	RPA	6	Planned	23
Multinational	5	AR & VR	6	Potential future implementation	8
Australasia	2	3D printing	4		
Middle East	2	IoT	1		
		Robots/drones	1		

Some examples of use cases

<ul style="list-style-type: none"> 📍 Brazil, Price Index 📱 Deployed 📊 Analysis of prices 🔗 N/A 	<ul style="list-style-type: none"> 📍 Japan, MIAC feasibility study 📱 Pilot 📊 Data backbone 🔗 N/A 	<ul style="list-style-type: none"> 📍 USA, Ask Laura 📱 Deployed 📊 Chatbot 🔗 N/A 	<ul style="list-style-type: none"> 📍 Australia, CAITY 📱 Deployed 📊 Categorisation of spend 🔗 N/A 	<ul style="list-style-type: none"> 📍 Finland, Palkeet RPA 📱 Deployed 📊 Automation: invoice processing & other RPA 🔗 RPA

Digital Transformation Challenges

1. Knowledge/new skills
2. Look into previous experiences
3. Think out of the box
4. Test/pilot/proof-of-concept
5. Start small and escalate later
6. System interconnection
7. Citizen centric vision

European Competency Framework for public buyers

Thank You
